Summary

Motivated **Software Developer** with a strong foundation in backend development, problem-solving, and system design. Skilled in building scalable applications, writing clean and efficient code, and collaborating in fast-paced environments. Eager to learn new technologies, adapt quickly, and deliver reliable, high-quality software solutions that create real business value.

Technical Skills

- **Programming Languages:** Python, Java, C/C++, JavaScript, Golang
- **Backend Development:** Django, REST APIs, MVC, RBAC.
- **Frontend Development:** HTML, CSS, Bootstrap, JavaScript, React, Vue
- **Database:** PostgreSQL / MySQL, MongoDB
- **Core CS:** OOPs, SDLC, Problem Solving Data Structures, Algorithms, System Design Basics
- **Tools:** VS Code, Postman
- **OS:** Linux, Windows
- **Cloud & DevOps:** AWS (EC2, S3), Git, Github

Projects

Classroom Allotment System (Python Developer)

- Built Django-based scheduling system; reduced conflicts by 80%.
- Implemented RBAC and real-time allocation; improved efficiency 60%.
- Designed REST APIs and optimized database queries.

Crop Yield Prediction (Using Machine Learning)

- Built ML model achieving 78% prediction accuracy.
- Applied feature engineering; reduced error by 40%.
- Visualized insights to support data-driven decisions.

E-Commerce Website (Full Stack Developer)

- Developed full-stack store supporting 100+ products.
- Reduced page load time by 35%.
- Handled secure orders with 99% success rate.

Education

- Completed **higher and secondary education** from **Jwala Devi Saraswati Vidya Mandir**. (April 2018 - April 2021).
- Pursuing **Bachelor of Computer Applications** from **Sam Higginbottom University of Agriculture, Technology and Sciences**. (2023- 2026).

Hobbies

- Acting, Gaming, Coding

Languages

- English • Hindi
